

M. SOHAIB MAQSOOD

AI / Machine Learning Engineer • Full-Stack Developer • Applied Mathematics & Data Science

Islamabad, Pakistan (Open to Relocation) • sohaibmaqsoodsohaibmaqsood@gmail.com

• +92 319 1057875 • [LinkedIn](#) • [GitHub](#) • [Portfolio](#)

PROFESSIONAL SUMMARY

BS Mathematics graduate (Data Science Specialization, Namal University) with a strong foundation in statistical modeling, machine learning, and full-stack software development. Hands-on experience applying Python and TensorFlow to build predictive models, including a final-year research project simulating disease transmission dynamics and risk prediction. Skilled at translating mathematical and statistical concepts — optimization, probability, numerical methods — into working software, with additional experience building REST APIs and web interfaces using Django and React.js. Seeking to apply strong analytical foundations and a builder's mindset to an entry-level AI/ML Engineer, Data Scientist, or AI Software Engineer role.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, TypeScript, SQL

Machine Learning / AI: TensorFlow, Predictive Modeling, Model Evaluation, Mathematical Modeling

Data Science & Math: Statistical Analysis, Probability, Numerical Methods, Optimization, Data Analysis, Data Visualization

Web Development: React.js, Django, Django REST Framework, REST APIs, JWT Authentication, HTML5, CSS3, Responsive Design

Databases: MySQL, PostgreSQL, SQLite

Tools & Platforms: Git, GitHub, VS Code, Postman, npm, pip

EDUCATION

BS Mathematics (Data Science Specialization)

Namal University, Mianwali, Pakistan 2022 – 2026

CGPA: 3.0/4.0 • Active participant in technical seminars, workshops, and engineering competitions

Relevant Coursework:

Machine Learning, Mathematical Modelling, Mathematical Biology, Probability & Statistics I, Probability & Statistics II, Data Visualization, Numerical Methods, Linear Programming & Optimization, Linear Algebra I, Calculus I–III, Differential Equations, Partial Differential Equations, Complex Variables, Real Analysis I & II, Functional Analysis, Differential Geometry, Discrete Mathematics, Introduction to Programming, Quantitative & Computational Reasoning, Physics I & II.

PROJECTS

HPV Transmission Dynamics & Cervical Cancer Risk Prediction — Final Year Research Project | *Python, MATLAB, TensorFlow, React.js, Django*

- Formulated and implemented a mathematical model to simulate HPV transmission dynamics and cervical cancer progression across population groups, applying differential-equation-based modeling techniques.
- Built a TensorFlow-based model to generate cervical cancer risk predictions from simulation outputs.
- Developed a full-stack dashboard (React.js frontend, Django backend) to visualize simulation results and model predictions for non-technical stakeholders.
- Combined applied mathematics, epidemiological modeling, and machine learning into a single research-grade decision-support tool.

Full-Stack Machine Learning Web Application | *Python, Django, React.js, Machine Learning*

- Integrated a trained machine learning model into a full-stack web application to enable real-time inference from a browser interface.
- Designed and built REST APIs to serve model predictions from the Django backend to the client.
- Built an interactive React.js frontend to display live prediction results to end users.

Healthcare Analytics Dashboard | *Next.js, NestJS, PostgreSQL, Prisma*

- Built an interactive healthcare data analytics dashboard with dynamic filters and responsive chart visualizations.
- Implemented real-time data updates and reusable React components to improve usability and performance.
- Designed the data layer using PostgreSQL and Prisma ORM for efficient querying and schema management.

CERTIFICATIONS & ACHIEVEMENTS

- Python for Data Science — Saylor Academy
- British Airways Data Science Simulation — Forage
- ReactJS Foundation Course — Scholarhat
- Naxium Software Internship Certificate — Naxium Software
- Soft Skills Certification — OEC & ICMBD
- Oral Presentation Certificate — International Conference & Expo on Life Sciences
