# Muhammad Sohaib Maqsood

**AI / Machine Learning Engineer | Full-Stack Developer | Data Science**

Islamabad, Pakistan +92 319 1057875 sohaibmaqsoodsohaibmaqsood@gmail.com
sohaib432002.github.io/PortfolioWebsite linkedin.com/in/m-sohaib-maqsood-72b785244 github.com/Sohaib432002

## PROFESSIONAL SUMMARY

BS Mathematics graduate (Data Science Specialization, Namal University) with a strong foundation in statistical modeling, machine learning and full-stack software development. Experienced in applying Python and TensorFlow to predictive models, including a final-year research project on HPV transmission dynamics and cervical cancer risk prediction, and in connecting trained models to real web applications through REST APIs, Django and React. Skilled at turning mathematical ideas (optimization, probability, numerical methods) into working software. Seeking an entry-level AI/ML Engineer, Data Scientist or AI Software Engineer role.

## PROFESSIONAL EXPERIENCE

### Web Development Internee
**Jul 2026 – Sep 2026**

**AppWorks Pvt Ltd** · Islamabad, Pakistan

- Served in the Web Development department, contributing to assigned tasks and gaining hands-on web development experience.
- Worked in a fast-paced software environment, collaborating with the team to deliver project goals.
- Completed the internship satisfactorily; recognised by the HR Manager for professionalism, dedication, communication skills and adaptability.

### Software Engineering Intern
**Jul 2026 – Present**

**carbonrepro**

- Contribute to software engineering projects, applying core programming principles to support application delivery.
- Work on optimizing backend logic.

### Software Developer Intern
**Jul 2025 – Aug 2025**

**Nexium Software**

- Completed a one-month internship working on web development, dashboard creation, data handling and backend APIs using Django, ReactJS and data visualization tools.
- Collaborated with engineering team members to debug application logic and support software delivery workflows.

## EDUCATION

### BS Mathematics (Data Science Specialization)
**2022 – 2026**

**Namal University** · Mianwali, Pakistan | CGPA: 3.0 / 4.0

- **Coursework:** Machine Learning, Mathematical Modelling, Probability & Statistics, Data Visualization, Numerical Methods, Linear Programming & Optimization, Linear Algebra, Differential Equations.
- **Final-year project:** HPV Transmission Dynamics & Risk Prediction (Python, TensorFlow, React, Django).

## TECHNICAL SKILLS

| | |
|---|---|
| **Programming** | Python, JavaScript, TypeScript, SQL |
| **Machine Learning / AI** | TensorFlow, Predictive Modeling, Model Evaluation, Mathematical Modeling, CNN, Scikit-learn |
| **Data Science & Math** | Pandas, NumPy, Statistical Analysis, Probability, Numerical Methods, Optimization, Data Visualization, Data Cleaning, Web Scraping |
| **Web Development** | React.js, Next.js, Django, Django REST Framework, REST APIs, JWT Authentication, HTML5, CSS3, Tailwind CSS, Redux, Responsive Design |
| **Databases & Tools** | PostgreSQL, MySQL, SQLite, Git, GitHub, VS Code, Postman, npm, pip, Vercel deployment |

## SELECTED PROJECTS

### Véora — Fashion E-Commerce Store

Live Demo · Source Code

**Next.js 16, React 19, TypeScript, Tailwind CSS 4, SQLite (Turso), Stripe**

- Full-stack store with a 1,000+ product catalogue, search and filters, cart with coupons, and Cash on Delivery or Stripe card checkout with webhook.
- Email and Google sign-in, password reset, order tracking, AI stylist assistant, and an owner-only admin panel for orders, products and coupons.
- Server-side price and stock checks, bcrypt-hashed passwords, JWT cookie sessions, Zod input validation and rate limiting.

### Graphica — Online Graphing Calculator

Live Demo · Source Code

**JavaScript, HTML5 Canvas, CSS, Vercel**

- Rebuilt a Flask and Matplotlib app as a fast browser-based graphing calculator: six function families plus custom expressions, roots and extrema, value tables, shareable links and PNG/CSV export, covered by 25 unit tests.

### HPV Transmission Dynamics & Risk Prediction

Live Demo · Source Code

**Python, TensorFlow, React, Django, Mathematical Modeling**

- Differential-equation based HPV transmission simulation and a TensorFlow model for cervical cancer risk prediction.
- Full-stack dashboard for simulation results and reports, with JWT authentication for patient and lab-engineer roles.

### VisuSign — Traffic Sign Recognition

Live Demo · Source Code

**Python, Django, React, CNN, Machine Learning**

- CNN-based traffic sign classifier served through REST APIs for real-time inference.
- React interface for uploading images and viewing live predictions in the browser.

### Gallstone Clinical Dashboard

Live Demo · Source Code

**React, Recharts, Context API, Data Visualization**

- Interactive clinical analytics with filtering by age, gender and gallstone status.
- Charts for BMI, cholesterol, glucose and symptom prevalence, with high-risk patient highlighting.

### Wealthly — Portfolio & Finance Dashboard

Live Demo · Source Code

**Next.js 16, React 19, Tailwind CSS 4, Recharts, SQLite (Turso)**

- Investment portfolio with live market prices, a 1D to ALL performance chart, allocation breakdown and a holdings manager with live symbol search.
- Income and expense tracking with insights, reports, filters and CSV export, backed by a hosted SQLite database behind REST API routes.

### YouTube Clone

Live Demo · Source Code

**React, Tailwind CSS, REST API**

- Home feed, trending, search, watch page with likes and comments, channel pages, subscriptions and studio-style uploads.

### Client Portfolio — Ali Haider

Live Demo · Source Code

**Next.js, TypeScript, Tailwind CSS, Three.js**

- Delivered a live, responsive portfolio site for a client, with motion and React Three Fiber visuals.

## CERTIFICATIONS & TRAINING

**Web Development Internship**
AppWorks Pvt Ltd · 2026

**Software Internship Certificate**
Nexium Software · 2025

**Soft Skills Certification**
OEC & ICMBD · 2025

**Oral Presentation Certificate**
International Conference on Life Sciences

**Python for Data Science**
Saylor Academy · 2025

**ReactJS Foundation Course**
Scholarhat · 2025

**British Airways Data Science Simulation**
Forage · 2024

**Tajweed-o-Qirrat Course**
PAF Base M M Alam · 2019

## INTERESTS

AI, machine learning and predictive modeling · Connecting ML models to web applications · Data visualization and applied mathematics · Reading Islamic knowledge
